POSTALES FROM MY NEIGHBORHOOD

CELIA ÁLVAREZ MUÑOZ

*Postales: Naranja Dulce, Ay! Chihuahua, Il Peso/El Paso, Kiambol/Campbell
1988*

Acrylic on canvas and metal street signs

Muñoz plays with words and pictures to tell stories of her childhood in El Paso. In this piece, she uses a painting, street signs, and storybook text to represent the ways people make their houses and neighborhoods their own. Whether it is with brightly colored paint or a change in pronunciation, our culture and language adapt to new spaces.

See instructions on the next page for an augmented reality experience.

AN AUGMENTED REALITY EXPERIENCE

- Download the Augment El Paso App.
- Scan the artwork *Postales: Naranja Dulce, Ay! Chihuahua, Il Peso/El Paso, Kiambol/Campbell* by Celia Álvarez Muñoz. You may scan it straight from your device screen or scan it from a printed image.
- Once the app recognizes the target image, scene assets will download and save to your device.
- After the content has finished downloading, scan the target image again and begin enjoying your augmented reality content.

TIPS & TRICKS

FOCUS

Aim your device at the target, and allow the autofocus to capture all of the details.

LIGHTING

If there is glare or too much light, the image will not scan properly. If there is too little light, the content may not track correctly or appear at all.

TRACKING

Tracking works best and is less jittery when the entire image is captured, but will still work as long as there is a portion of the target in the camera frame.

**What did you learn from the Artist? What would you create to represent your home?
What imagery would you use? Draw a postcard of your neighborhood in the space provided below.**
