TO CREATE

# TIME FOR Toddlers TO CREATE

## Make Geometric Characters

Are you looking for fun things to do with your toddler that the whole family will enjoy? Try this fun, easy and imaginative activity with your loved ones. Create all kinds of characters like portraits of your family members, your favorite movie characters or your pet out of geometric figures!

## Materials

- Sheet of paper (any color)
- Clean and dry sponges of all shapes and sizes.
- Acrylic paint (all colors)
- Black pen or marker
- Flat container (paper plate, paint palette)
- Container with clean water

## Steps

- 1 Pour the paint on the flat container.
- 2 Dip the sponge on the paint and stamp the sponge on the paper. If you have a big sponge, you can use scissors to cut the sponge into small figures; circles, half circles, squares, rectangles etc.
- 3 Try different shapes and different colors.
- 4 Let the paint dry completely.
- 5 Once the paint is dry, use a pen or marker to draw on top of the paint. Draw a face, a hat, or your pet on the figures.
- 6 Share your artwork with EPMA. Tag EPMA on social media @ElPasoMuseumofArt and use the hashtag #EPMATimeForToddlers #EPMAGeometricFigures.
